

## **Applewood Acres Gardening On Dale Goldhawk's Rogers Live Talk-Show**

Goldhawk Live tomorrow night is shaping up to be quite the event. Participating as part of the panel to discuss the latest move by the Ontario government to ban pesticides will be program host Dale Goldhawk, Rick Brzakala -President, Applewood Acres Gardening and Landscaping and Board Member for the Organic Landscape Alliance, Gideon Forman, Executive Director Canadian Association of Physicians for the Environment (CAPE) and a representative from the Registered Nurses' Association of Ontario.

The bylaw announced on Earth Day Wednesday April 22, 2009 had a majority of almost 75% Ontarians supporting the legislation, however recent events such as the U.S. company Dow Chemicals challenging the legislation in Quebec by having filed a claim under the North American Free Trade Agreement seeking compensation for the ban there sheds a shadow of doubt as to whether the legislation in Ontario may be overturned in the near future. Callers will be invited in to discuss their views and opinions on the ban.

Goldhawk Live is a call-in show from 7:00-8:00pm. Dale Goldhawk is our host and will direct the caller's questions to the guests and also lead the discussion in the studio.

Goldhawk LIVE airs Monday thru Thursday at 7PM, exclusively on Rogers TV, Cable 10 in Toronto and 63 in Scarborough.
